Description Of Project:

Project objective:

Build a responsive website for a restaurant where users can read the details of the restaurant.'

Background of the problem statement:

You are a web developer at a service-based web development company called Kite Technologies. The company has been approached by a client who wants to build a website for their restaurant named Ming's Diner. The website should provide the users a brief overview of the restaurant and its bestsellers, its address, as well as an option to contact the restaurant. During sprint planning, you agree to lead this project and develop the website.

Steps

- Design the website's layout and style.

- Develop the website using HTML, CSS, and responsive design techniques.

- Enhance functionality with interactive features and optimize for performance.

- Integrate high-quality images and engaging content.

- Test the website for compatibility and functionality.
